## EDINBURGH SC-3 DATA SHEET

Edinburgh SC-3 is a highly resilient and accredited data centre, located 12 miles west of central Edinburgh. This site provides a lower cost alternative to SC-1 and SC-2 with 6 on-site carriers. This facility has excellent access via road and rail networks and can be easily reached from Edinburgh Airport. Flexible colocation options include full, half and quarter racks.

Scotland is home to some of the fastest-growing technology and financial organisations in the UK, boasting a highly educated and skilled workforce in tech roles. Pulsant has the largest footprint of highly connected data centres in Scotland with three located on the outskirts of Edinburgh.

SC-3 is part of Pulsant's network of 14 interconnected UK data centres, connected via the Pulsant Edge Fabric, a 100Gb national network for low-latency access to 1,600+ cloud services, network providers, and business partners.
