

Milton Keynes SE-1

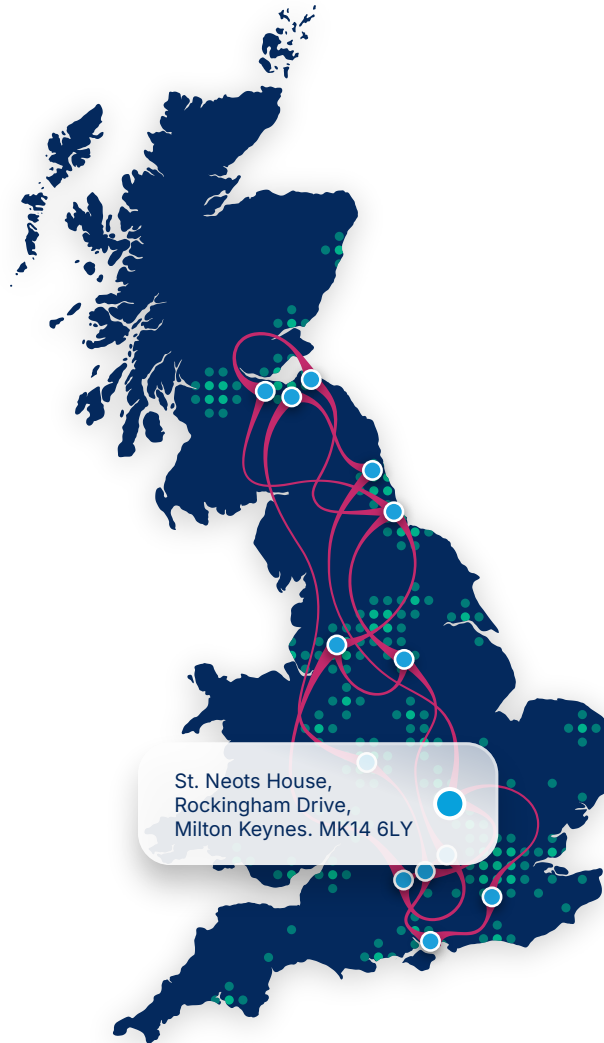

Regional Edge Data Centre

Milton Keynes SE-1

Regional Edge Data Centre

MILTON KEYNES SE-1 DATA SHEET

Milton Keynes SE-1 was originally constructed as a financial services data centre with high security in mind. This facility is highly resilient with 10 carriers on site, including access to Megaport, and is located 54 miles northwest of Central London, in the heart of England. The site is easily accessible by both road and rail and sits 25 miles from London Luton airport, ensuring convenient access for both domestic and international clients. Flexible colocation options include high-density racks, full, half, and quarter racks, and private cages.

Pulsant has a significant footprint of 6 colocation facilities spread across the South of England providing connectivity to over 25,000 tech companies based in Central London. This region is the most densely populated in the UK and houses the 'M4 Corridor' which has grown into a technology hub for a large number of digital organisations.

SE-1 is part of Pulsant's network of 14 interconnected UK data centres, connected via the Pulsant Edge Fabric, a 100Gb national network for low-latency access to 1,600+ cloud services, network providers, and business partners.
