Regional Edge Data Centre

READING SE-3 DATA SHEET

Located to the south of central Reading, this data centre boasts over 1000 racks spread across five data halls. Just a few minutes from junction 11 on the M4 and 20 miles west of Slough, this colocation facility offers strong connectivity into London with 11 different carriers available and is ideal for disaster recovery and back up to the Slough Data Centre Hub.

Pulsant has a significant footprint of 5 colocation facilities spread across the South of England providing connectivity to over 25,000 tech companies based in Central London. This region is the most densely populated in the UK and houses the 'M4 Corridor' which has grown into a technology hub for a large number of digital organisations.

Pulsant's national colocation footprint enables you to expand your reach geographically with access to an ecosystem of over 500 clients, partners and service providers. Connected by a private, high speed network, Our data centres deliver ultimate flexibility in cost, scalability and performance. Colocating with Pulsant enables businesses to deploy infrastructure at the network edge.
