Regional Edge Data Centre

READING SE-4 DATA SHEET

This data centre located just to the east of Central Reading has 8 carriers available providing an alternative to the Docklands or the Slough Data Centre Hubs. It is easily accessible by junction 10 on the M4 and delivers up to 1MW of power across two buildings.

Pulsant has a significant footprint of 5 colocation facilities spread across the South of England providing connectivity to over 25,000 tech companies based in Central London. This region is the most densely populated in the UK and houses the 'M4 Corridor' which has grown into a technology hub for a large number of digital organisations.

Pulsant's national colocation footprint enables you to expand your reach geographically with access to an ecosystem of over 500 clients, partners and service providers. Connected by a private, high speed network, Our data centres deliver ultimate flexibility in cost, scalability and performance. Colocating with Pulsant enables businesses to deploy infrastructure at the network edge.
