Pulsant

Rotherham YH–1

Regional Edge Data Centre

Rotherham YH–1
Regional Edge Data Centre

Our Rotherham colocation facility is strategically located for connections into Yorkshire, Manchester and the Midlands. Easily accessible by road and rail, this data centre benefits from a recent data hall refit to offer best-in-class infrastructure for organisations looking for an alternative to hosting production or disaster recovery infrastructure in Leeds.

With a population of over 14 million, the North of England plays a key role in the UK economy. Large reserves of available renewable power and increasing connectivity to destinations around the world have developed the region into a centre for technology, innovation and services. Pulsant has a large footprint in the North featuring 4 data centres spread between Newcastle, Manchester and Yorkshire.

Pulsant's national colocation footprint enables you to expand your reach geographically with access to an ecosystem of over 500 clients, partners and service providers. Connected by a private, high speed network, our data centres deliver ultimate flexibility in cost, scalability and performance. Colocating with Pulsant enables businesses to deploy infrastructure at the network edge.

Unit 1, Pioneer Close, Manvers, Rotherham, S63 7JZ
